MYTHS ABOUT IMPAIRED DRIVING

- If I have 1 drink per hour I will be under the legal limit. WRONG.**
The amount of alcohol varies according to the type and size of your drink, and the rate of absorption and elimination of alcohol varies in each individual. Depending on the circumstances, 1 drink per hour can put you over the legal limit.
- If I tell the officer I only had a couple of drinks, he will let me go. WRONG.**
The officer is legally authorized to make you provide a breath sample if you admit to consuming any alcohol, or if he smells alcohol on your breath.
- Drinking coffee or an energy drink will sober me up so I am ok to drive. WRONG.**
These drinks may make you feel more alert but do not reduce your blood alcohol level. Driving with a blood alcohol level that exceeds 80 mg % is a separate criminal offence with the same penalties as impaired driving, and the police usually lay both charges.
- If I blow over, there is no point in trying to fight it in Court. WRONG.**
These charges are very technical, and we know them inside and out. We have successfully defended thousands of impaired driving cases in the last 22 years and offer a **money back guarantee. If you are not happy with the result in your case, we will give you back your money.** If you need to keep your licence and avoid a criminal record, call us. We can help.
- If I put pennies in my mouth I can beat the Breathalyzer. WRONG.**
Don't be Stupid.
